Education

Master's in Data Science and its Applications

University of Essex

Jan 2025 - Dec 2025

GPA: 80% (UK Scale)

Relevant Coursework: Data Science and Analytics, Machine Learning, Data Engineering, Python Programming, Statistical Methods, Big Data Technologies

B.E in Computer Science and Engineering

Adhiyamaan College of Engineering

2018 - 2022

CGPA: 7.7/10

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Web Development, Object-Oriented Programming, Artificial Intelligence, Mobile App Development

Experience

Junior Designer, YearnNFT — Hubballi

Jan 2019 - Mar 2021

- Designed a variety of visual materials including posters, illustrations, and digital posts, enhancing brand visibility and engagement.
- Gained proficiency in Adobe Illustrator and Adobe XD for creating impactful and engaging visual content.
- Managed multiple design projects simultaneously, collaborating with cross-functional teams and meeting tight deadlines.
- Applied creative problem-solving to address design challenges and adapted to new design trends and tools.

Full-Stack Developer, Siscaso — Chennai

Dec 2022 - Feb 2024

- Built web and mobile applications using a broad technology stack, including HTML, CSS, JavaScript, React, TypeScript, Python, Shell scripting, Flutter (Dart), MongoDB, and SQL.
- Developed responsive and interactive front-end interfaces, cross-platform mobile apps, and robust back-end logic.
- Enhanced application performance and user experience through efficient coding practices and optimization.
- Gained expertise in full-stack development, database management, and mobile app development, while leading initiatives to improve project workflows and code quality.

Projects

Tech Empight — techempight.site

Developed a financial services platform providing innovative solutions for individuals and businesses. Built front-end and back-end using HTML, CSS, JS, Astro, Flutter, and Python. Implemented secure, efficient workflows and custom financial tools, enabling seamless transactions and global client support.

Click Laundry — clicklaundry.in/home

Created an end-to-end laundry service application with React, TypeScript, Flutter, and Python. Developed online scheduling, order tracking, and delivery management. Focused on efficiency, eco-friendly processes, and quick turnaround, improving customer experience.

Ourlife — ourlives.in

Built a biotech solutions website using HTML, CSS, JS, and Bootstrap. Designed and implemented interfaces for research, product development, and consultation services, enhancing accessibility and professional presentation for biotech clients.

Boss Go Run — bossgo.run

Developed a fitness and gym service website using HTML, CSS, JS, and Bootstrap. Created features for personalized training plans, class scheduling, and wellness guidance, improving user engagement and service accessibility.

Telegram Data Scraper and Messaging Tool — github.com/CodeKakashi/telegram_scrapper

Engineered a Python tool for data extraction and messaging on Telegram. Automated message reading, data collection, and messaging, enabling efficient communication workflows and large-scale data retrieval for analysis.

Portfolio Builder — github.com/CodeKakashi/poto

Developed a user-friendly platform for creating online portfolios using HTML, CSS, TypeScript, and JavaScript. Enabled users to showcase work, customize templates, and create professional designs, helping creatives establish an online presence efficiently.

Skills

Code: Python, JavaScript, TypeScript, R, HTML, CSS, React, Flutter (Dart), SQL, MongoDB, JSON, Shell Scripting

Design: Adobe Illustrator, Adobe XD, Figma, Canva, Photoshop

Data & Analysis: Excel, Power BI, Data Analysis, Data Visualization, Pandas, Jupyter, NumPy, Scikit-learn

Miscellaneous: Microsoft Office

Soft Skills: Problem Solving, Critical Thinking, Communication, Team Collaboration, Adaptability, Attention to Detail, Time Management, Creativity

Summary

I am a passionate and adaptable Data Science student and Full-Stack Developer looking for an opportunity to apply my technical skills, analytical knowledge, and problem-solving abilities to deliver impactful data-driven solutions and innovative software applications.
